

WE HAVE MANY SUCCESS STORIES.

NOW, WE ARE WAITING FOR YOURS.

One of many such success stories is Mr. Ranade's. He has experienced the benefits of SAP eAcademy. And the world wants more people like him. SAP professionals are most in demand and are among the highest paid.

Now it's your turn to join the success band wagon. And of course we'll be waiting for your story.

Mr. Ranade's success story with SAP eAcademy

The SAP eAcademy is a flexible and cost-effective way to attain the knowledge needed to become an SAP Certified Consultant. I did the program at an Authorized SAP Training Centre in a flexible manner to fit around my daily commitments. The learning environment was top notch and the online support to clarify doubts was very efficient. The best part was that I also got hands-on experience on applications linked to SAP servers located in Germany.

With my SAP Certification and guidance from the Training Center, I am now placed in a leading IT company. I am convinced that the SAP eAcademy was the best career choice I could have made and will definitely recommend the same to others.

Best regards,
Atul Ranade
